GASOLINE FUND CONTAINS \$1,197,678 IN FEMA FUNDS

County Commission approves record \$6,191,119 budget for FY-91

By Marvin McIlwain
Elba Clipper Editor

In a continuation of the allourned meeting from Monday, September 25, the Coffee County Commission approved a FY-91 budget totalling \$6,191,119.00 on Thursday, September 27, 1990. Last year's budget was \$4,461,000.

Before presenting the budget figures, Commission Chairman Billy Eagerton said, "This budget is going to be, of course it includes FEMA and other disaster funds, a higher number than it ordinarily would be because of the FEMA projects and things that are going are included in the budget."

Backing down the budget, Eagerton stated that the General Fund budgeted amount is \$2,603,200.00. Traffic Highway and Traffic is \$223,390.00. Gasoline Fund is \$3,090,678.00. Mapping and Appraisal is \$157,070.00. 3R Fund (4¢ gas-

oline tax monies for repair & reconstruction of roads) \$77,000, and \$39,772.00 for the Flood Fund.

The Gasoline Fund contains \$1,197,678.00 in FEMA funds.

In preparing the budget, the commission asked that all departments cut their last year's budget figures by 5% across the board. Also, no appropriated amounts were to be increased over previous years.

Examples of judges, revenue commissioners, sheriff's salaries,

Eagerton, on behalf of the commission, expressed regret in having to make the appropriation cuts, but it was necessary in order to obtain balanced budget.

A 2¢ increase across the board raise for all county employees is included in the budget. Eagerton stated that this would not have been possible without the help of department heads who made cuts in their own departmental budgets.

Eagerton responded, "We're not going to have a choice - we're going to live with it!" All the commissioners amplified Eagerton's statement.

County Administrator Wilson Mobley will be closely monitoring the expenditures of each department during the year and no purchase orders will be issued if the money is not there!

Every department of the county will be receiving a periodically updated computer printout of their budget. As soon as the budget is adopted, they will automatically be subtracted from their budget.

Eagerton said that even though Coffee County has had many recent

problems, it continues to be progressive. We have a new health department building, the construction of a new county jail has begun, plans are being made for a new courthouse, the Elba Courthouse, bottom floor has been renovated after the flood by county employees, also the health building in Elba has been repaired

by county employees.

Coffee County will also soon be getting a new mental health building and a new county board of education building.

"You know since March - our employees we can't say enough good about them because they've worked in a very bad situation ever since

March", said Eagerton, "and they've worked hard...there's just been a lot of progress made. Everybody has given 100%, Coffee County is mending back...we're doing real well!"

On that note, the commission adjourned until the next regular scheduled meeting on October 8 in Enterprise.

FIFTEEN ELBA FAMILIES GET SPONSORS

Montgomery group adopts Elba families

By Marvin McIlwain
Elba Clipper Editor

A group of Montgomery folks have adopted fifteen Elba families in the Adopt-A-Program.

Carolyn Brown and Marge Payne were in Elba Monday, September 24, to finalize plans for the adoption of the families victimized by the March flood.

Many of you may remember

Marge Payne who for eighteen years

was host on the children's program

"Young World", on WSFA in Montgomery.

The "Montgomery Group", as they call themselves, is made up of members of St. John's Episcopal Church, the employees of GBS Montgomery plant, and the staff of WSFA television station. Payne and Brown stated that with the help of Dr. Al Perkins, pastor of St. John's, and Kathryn Stubbs, wife of Mr. Perkins, the fifteen families victimized by the March flood, plans are underway to expand the "Montgomery Group".

Under the leadership of Marge and Carolyn, the group of sponsors from Montgomery are well organized and have dotted their "Is" and crossed their "T's".

The group's plans are to respond to specific and personal needs of the individual family member's of the fifteen families adopted. Excess items or items not needed by the adopted families will be donated to

the Elba Adopt-A-Family Program for distribution.

CE plant employees who are also

carpenters, plumbers, painters, and

electricians plan to come to Elba in the very near future to volunteer their services to the program.

Wiley Sanders Trucking of Troy

has donated trailers to the group to

be used in storing and transferring

the goods collected to Elba. Sanders

Pictured above are (L-R): Marge Payne, Glenn Vaughan and Carolyn Brown. The ladies from Montgomery were in Elba finalizing plans to adopt fifteen families in the Adopt-A-Family Program.

also pulled large number of his trailers to Elba during the "flood crisis" which were used to store families' belongings.

Before departing to Montgomery, Mrs. Payne and Mrs. Brown were joined by their son Glenn Vaughan, they were shown where many of the adopted families live.

Montgomery, and the many others like you - WE SALUTE YÖU!

Final touches put on Elba Courthouse

By Marvin McIlwain
Elba Clipper Editor

The Landmarks Collection of Probate Judge Marion Brunson are back in their places and the halls of the Elba Courthouse look even better than before the March 17th flood.

The Landmarks were painted by Mary Louise Collier of Elba and framed by Mr. Jay Porter owner of Plain N' Fancy in Enterprise.

As soon as Judge Brunson was able to get into the courthouse after the flood, he stood the pictures

which had fallen onto the floor, against the wall to drain out the muddy river water.

The next day, the paintings were taken to Mrs. Collier's home where she carefully cleaned each Landmark painting and framed it. She then took the paintings to Mr. Porter who had originally framed the collection for Judge Brunson.

Mr. Porter replaced clips, wires, backing and did touch-up work to the frames. All of these are back in their original state and no one would know that they had been through a flood. Mr. Porter said, "this is a good

example of friends working together."

The collection of Coffee County's Probate Judges in Judge Brunson's office were also badly damaged by flood waters. These photographs were originally framed by Mr. Porter. They had to be removed from the frames, washed several times and re-framed.

Had the photographs not been properly framed originally, they would have been damaged beyond restoration. Those too have been re-framed by Mr. Porter in their original frames and now hang on Judge Brunson's office wall.

With the exception of a short discussion on lot clean-up, the Wednesday evening city council meeting centered around the adjusting of FY-90's budget.

For the members of the press present at the meeting, Mayor Driskell noted that a FY-91 budget was necessary in order to prepare a more accurate FY-91 budget.

With the exception of a short discussion on lot clean-up, the Wednesday evening city council meeting centered around the adjusting of FY-90's budget.

Mayor Jim Driskell noted that the city borrowed \$10,000 to pay for the city's insurance acquired this year.

"We're probably financially in as good a shape as I've seen this place (city) since I've been here," said Driskell. "I put a lot of that credit on the council's shoulders," he continued, "the sales and use tax as you see went from \$68,000 to \$76,000 and that makes a big difference when it comes time to pay out of the general fund - it makes a whole lot of difference!"

approximately \$3,000 short of the budget adjustment for FY-91.

He said that he felt that license

occasions, individuals and/or companies had come in to the city, conducted their business and left without purchasing a business license.

The council agreed that this should be more closely monitored in the future.

The mayor and council commend members of police department for their efforts in keeping main vehicle maintenance to a minimum. This was attributed to the use of spare parts taken from old police vehicles.

Mayor Jim Driskell noted that the city borrowed \$10,000 to pay for the city's insurance acquired this year.

"We're probably financially in as good a shape as I've seen this place (city) since I've been here," said Driskell. "I put a lot of that credit on the council's shoulders," he continued, "the sales and use tax as you see went from \$68,000 to \$76,000 and that makes a big difference when it comes time to pay out of the general fund - it makes a whole lot of difference!"

City attorney Joe Sawyer was

asked by the council what could be done to get vacant lots cleaned up within the city limits. He said that legally, the city is well within its

"police powers" to clean the lots and bill the owner for the expense incurred doing so.

The council agreed to send a committee to go to individuals who own lots which are clearing asking them to attend to the matter - if they do not, then the city will take care of the matter for them and they will be billed. Sawyer was instructed to draft the courtesy letter for the council.

Other matters addressed by the council included the following:

***Paid bills totaling \$73,010 (\$3,208.00 was paid to Alabama League of Municipalities for the city's insurance coverage).

***Councilmen were informed that the approved renovation to city hall will begin Thursday, September 27, 1990.

New Brockton Council adjusts FY-91 budget

By Marvin McIlwain
Elba Clipper Editor

The New Brockton City Council met Wednesday, September 26, because the regular scheduled meeting on Monday, September 17, was postponed due to the death of Wilbur Finch, a New Brockton Police Officer.

The council agreed to send a short discussion on lot clean-up, the Wednesday evening city council meeting centered around the adjusting of FY-90's budget.

For the members of the press present at the meeting, Mayor Driskell noted that a FY-91 budget was necessary in order to prepare a more accurate FY-91 budget.

With the exception of a short discussion on lot clean-up, the Wednesday evening city council meeting centered around the adjusting of FY-90's budget.

Mayor Jim Driskell noted that the city borrowed \$10,000 to pay for the city's insurance acquired this year.

"We're probably financially in as good a shape as I've seen this place (city) since I've been here," said Driskell. "I put a lot of that credit on the council's shoulders," he continued, "the sales and use tax as you see went from \$68,000 to \$76,000 and that makes a big difference when it comes time to pay out of the general fund - it makes a whole lot of difference!"

Plans are for the council to approve the FY-91 budget at the next meeting on Monday, October 15, 1990. The mayor estimates next year's budget to exceed 1/2 million dollars.

Homecoming parade plans

Elba High School will hold its annual homecoming day parade on Friday, October 19, 1990.

Anyone wishing to participate in the parade is asked to notify the school by no later than Wednesday, October 10, 1990. You may call 897-2366 to place your entry in the parade.

A parade route will be published in the paper as soon as plans are finalized.

There will be no exceptions to the parade, so get your place in line now!

With the exception of a short discussion on lot clean-up, the Wednesday evening city council meeting centered around the adjusting of FY-90's budget.

For the members of the press present at the meeting, Mayor Driskell noted that the city borrowed \$10,000 to pay for the city's insurance acquired this year.

"We're probably financially in as good a shape as I've seen this place (city) since I've been here," said Driskell. "I put a lot of that credit on the council's shoulders," he continued, "the sales and use tax as you see went from \$68,000 to \$76,000 and that makes a big difference when it comes time to pay out of the general fund - it makes a whole lot of difference!"

Due to the delay in receiving the grants totalling in excess of \$200,000 for the sewage system, FY-91 budget was adjusted by that amount. This is the largest item adjusted. There were numerous other changes made with most of the places cancelling out the minutes.

Benton line was that last year's budget (FY-90) totalled \$309,123.25 after all adjustments were made.

Mayor Driskell and Linda Dillow, city clerk, also gave the council some good news. They stated that all outstanding loans against the city have been paid with one exception -

The mayor also noted that the law does not require

BRAINSTORMS

With Ferrin Cox

We are writing this on Monday and things are looking up in the Middle East. With that "bad guy" now talking like he would consider some sort of talked out solution and speaking favorable of the French proposal . . . we see a ray of hope! However it just ain't that simple. While the French proposal calls for free elections in Kuwait and Americans are strong advocates of the same, we have to watch Iraq's Saddam Hussein. Suddenly referred to this as a "good guy" . . . his papers from Kuwait citizens and giving them to Israel. Is he? I don't know. His plans may include the free election with his stooges voting for someone favorable to his radical ways. Then he takes over, we can't say a word and Hussein thumbs his nose at the world, saying "I told you this is what he wanted".

The news headlines indicate a compromise has been reached by the House and the Senate in setting a federal budget. Actually a committee of both parties has come to an agreement . . . of sorts. Now we are going to experience a lot of jumping up and down as individual lawmakers try to make points back home by opposing the most distasteful parts of the proposal. There are increase taxes . . . even if we call them user fees, inspection fees or whatever. However the way our government is being run there is no other way to do it. As much as we would like to elect lawmakers who promise to give the most . . . we will continue to pay more taxes. It is so plain and simple, we march the whole world doesn't understand. May be folks do understand but don't care as long as they get their additional goodies from the feds.

Elba continues to rebound from the March flood. Now both the local banks are back in their remodeled and updated facilities. City hall and the police station are nearing completion and others are making progress. Elba week we hear of homeowners excited about recouping their repaired home. It is looking good!!

The U.S. Supreme Court will get a new member this week. It appears David Souter will be named by the Senate Judiciary Committee last Friday. He is beyond the age limit that the Constitution sets for the court. Of course Ted Kennedy was opposed to the nomination and that should give the new man a positive position with the vast majority of Americans! No one knows how Souter will vote - liberal - conservative or middle of the road. No one knows how he will vote on particular issues and a lot of folks are opposing him for this reason. They want a candidate to tell them exactly how she or he will vote on any given issue, even before such a case comes before the court. What ever happened to looking at the facts and the law? We may not like Judge Souter's decisions either, but we are not against him until we see his colors.

We are so tired of hearing these "experts" predict the country is heading into a recession. Of course if they keep it long enough, it is sure to happen. Not because they correctly predicted it, but because of a combination of the economy, the country's people and the fact it will probably happen sooner or later anyway. For several years now some of one economist or another has been telling us the signs pointed to a recession and soon. Well it ain't happened yet and we repeat . . . we are tired of hearing predictions of a recession coming.

Elba Chamber Of Commerce Are Selling Christmas Ornaments

The Elba Chamber of Commerce will begin to sell its 1990 holiday ornaments beginning on September 10. This year's ornaments features the "Elba High School". A different landmark will be featured on each year's bulb, according to Gene Kenneth, Executive Director of the

Chamber. The holiday ornaments, which are individually gift boxed, sell for just \$6.00 each. They also make an excellent gift for someone who has moved from the area. Because the holiday ornaments are a limited item, it is recommended that residents purchase them early while supplies last. Orders may be purchased at Biddle's Florist and The Jewel Box. For more information call Kennett at 897-2739.

Promotions And Advertising Short Course Set at ESJC

Learn about such topics as promotional sales tools, types of advertising, and advertising strategies in "Advertising, Promotion and Publicity", a professional development course offered at Enterprise State Junior College. Other topics include "How to Start and Operate a Small Business" and "How to Start a Business". Both courses will be covered in the October 23 seminar. Registration deadline is October 16. Call the Short Course Office at ESJC for details or registration information.

ESJC Pre-Business Workshop Is Planned For US Veterans

Enterprise State scheduled a one-day Pre-Business Workshop for Veterans. The seminar will cover how to start and operate a small business. Topics to be included in the program will be financial factors, sources of capital, forms of business organization, marketing, business regulations, taxes, insurance, business records and special assistance for veterans.

NEW BUSINESS IN ELBA Mrs. Irene Grant recently opened a new business in Elba. Elba Discount Foods opened in August and business has been brisk. Located on Buford Street in downtown Elba, Mrs. Grant said she had always wanted to do something like this and the March flood didn't change her in the potential for such a venture.

Ever since she operated a country grocery store between Elba and Zion Chapel in the early 1980's, who has toyed with the idea of opening a discount store in Elba. "I wanted to do it by myself, without any partners, and I never would have to please my and my customers", Mrs. Grant said last week.

Mrs. Grant, above left, is pictured in the store with her daughter, Sandra Holloway, who assists her mother in the business.

Millie's Views By Millie Lott

I'm proud to say that the chocolate cravings have just about gone away. I just hope now that the pimples will follow the chocolate and go away.

There is one thing that has really been bugging me. It's so called fair weather friends. I seem to have a lot of them lately. Sure I'm not the easiest person in the world to get along with, but you need to remember that I am only human. I have my faults and I am nowhere close to being perfect, but I do try to not judge people. Sometimes I slip up and make a mistake. I have on occasion talked about someone "behind their back". But don't judge me. I'm not that bad.

Right off the top of my head I can think of three that are pretty upset with me. The thing is I can't recall doing anything to two of them, but on the other hand the third is not exactly a favorite of mine. Don't get me wrong it's not that I don't like her, it's just that there are some things about her that I don't like. I have no problem being friends with any of them. I have just problems being around them. That is if they are able to understand and tolerate me for me. Not for what I should do for them. But I am quickly learning to judge my friends more carefully.

So to those three out there (or any others), and they know who I am talking to, you made the decisions not me!

You know what, a good friend is hard to come by, but when you do find one, believe me you will know it. Thanks Stacey & Mike for being there and being yourselves.

There is another thing that has been bugging me. And I'm not the only one. How does anyone have the right to control what the general public listens to. I'm talking about censorship of music. That would be like telling my grandfather that he can't listen to Mozart because Mozart is old. Where do I have the right to say that. I'll tell you, nowhere. But what goes beyond that is, it is his right as a free American to listen to whatever he wants.

I know that I have the right to do what I want to do. I have the right to listen to groups like 2 Live Crew or Judas Priest. But parents, there does come a time when the child grows up and begins to acquire a taste all their own. I believe that is when the parent should begin to give a little. Sure in most cases your interests will clash, but that is only because you are different individuals with different interests.

If you don't have any literature, movies, clothing styles. I guess eventually I will have to.

My simple solution, if you don't like it then leave it well enough alone.

Not to get off track but I did learn something in my history classes - Revolutions began in cases of Oppression - think about that!

Obituaries

ELIZABETH SUE COMPTON

Elizabeth Sue Sanders Compton, 86, formerly of Laguna Beach, Florida, died in Memphis, Tennessee on Tuesday, September 25, 1990. She was the wife of Elba's first mayor, Judge Jacob Franklin Sanders. Her mother was Julia Brighton Lee, daughter of Confederate veteran, Captain Charles Stephen Lee, of Alabama's 7th Cavalry, and Mary Jane (Bryant) Lee. Elba affectionately knew as "Aunt Polly".

Elizabeth received her piano certificate from Huntington College in Montgomery, and her Bachelor of Science in Education and her Masters in Social Work from the University of Alabama. She also taught at Auburn University and studied at Louisiana State University and Troy State.

In 1970 she retired as a casework supervisor from the Department of Pensions and Securities in Birmingham and moved to Laguna Beach, FL where she became organist at St. Thomas By-The-Sea Episcopal Church. In the 1940's she worked as a home demonstration agent in the Hale County, AL area, and became a cattle rancher, a dairy farmer, and world traveler.

She held various offices in the Daughters of the American Revolution, the Episcopal Church Women of All Saints' Church in Homewood, AL, was a member of the Daughters of the American Revolution, and a founding member of the National Association of Social Workers.

Since 1986 due to declining health she had lived with a grandson and his family in the Memphis, Tennessee area.

She is survived by four grandchildren, Warren A. Sedberry, Jr., Middebrook, VA; Charles Stephen Sedberry, III, and three great grandchildren.

Sincerely,
Dixie Dorsey

WE GET LETTERS

Dear Ferrin,

On behalf of the Elba Education Association, I want to thank you for your coverage of our reception for our new superintendent, Mr. Charles Pearce.

Your kind cooperation is very much appreciated.

Sincerely,
Dixie Dorsey

THE PRESSBOX
 By Ricky Mularz

Having pictures made is never fun! Last Wednesday was the day for school pictures to be made and Melissa, our little second-grader, had to make sure everything was perfect. She got up at 6:30 a.m., took a shower, had a bath and washed her hair, then had to blow-dry and style several different ways before finding one that would do. After getting dressed in "something pretty," she had to sit still at the house until it was time to go to school. There is no telling what she looked like by the time pictures were made; however, if the pictures aren't good it won't be because of a lack of effort!

ELBA TIGERS CLAIM BIGGEST WIN OF SEASON

The Elba Tigers grew up two weeks ago when they scored 12 points in the final stanza to defeat Luverne and last Friday night played like seasoned veterans as they pounded the previously unbeaten Opp Bobcats 34-8 in front of 1,000 fans.

All the news from Opp was how the 3-0 Bobcats should be ranked in 5A after impressive wins in the opening three games and the night before the game a big pep rally and party was held to make sure all Bobcat players and fans were ready to defeat the Elba Tigers. Well, all I can say is that I hope they had fun at the party, because once the game started it was all Elbas!

A coach offered me his best game of the season against Opp and moved the ball on the first three plays of the second half. The Tigers drew 83 yards for their first score, which came on a 10-yard pass from John Jacobs to Ronald McKinnon, and then cashed in on Opp turnovers to up the lead to 20-0 before the Bobcats knew what hit'em. Another long scoring drive late in the second quarter made it 26-0 and the only question left unanswered was how bad would the final score be?

Coming into the game, the scouting report was that the Tigers would be balanced on offense and that was exactly what they did. John Jacobs passed for over 100 yards and two touchdowns, while Ronald McKinnon making three big catches and Todd McCall hauling in a scoring pass over two would be Bobcat defenders. The running attack was clicking along all game long and for the first time this season didn't fumble the ball every time it had it. The Tigers defense also improved and showed signs of becoming another in the long list of outstanding Elba defenses. Shane Blanton began to show he is now comfortable at fullback and had some long runs, as well as pounding out the tough yardage inside. The sudden emergence of the offense is also the result of the vast improvement of the offensive line. The Tiger linemen had a rough night against Daleville, but began to take charge against Luverne and Luverne, and Friday night went out against the Bobcats of Opp. The Bobcats came out on top. When you can win the battle in the trenches you will often win the war, and such was the case again Friday night for the Tiger offense.

The Elba defense was supposed to be outmatched by the quick and talented Opp offensive attack; however, the defense limited the Bobcats to only one score and came up with several big plays that kept the Opp offense bottled up. One big play, early in the game, came when Opp failed on a 3rd and 10, and the ball was recovered by the Tigers. This play came after a long run had given the Bobcats a first down at the Elba 29, but then the defense had to only 74 total yards in the first half, while the offense was picking up 26 points, and then kept its poise in the second half when it would have been easy to relax as the Bobcats came back. The defense has been outstanding, and Friday night was just another example. Ronald McKinnon, who gained 100 yards in a game a year ago, was his old self against Opp as he ran from side to side and made a dozen unassisted tackles. McKinnon was tough against the run, made big stops after completed passes and made the tackle on a fake punt late in the game that resulted in a short gain. Yep, it looks like Ronald is back! Another player that caught my eye Friday night was Kassey Reedy, a senior, rear back, fullback who had a big night with 10 big quarterback sacks. Reedy may have been the "unknown Tiger" when he first started, but now everybody knows his name! Other players who looked good on defense were Ronnie Joe Edwards, who is the heart of the defensive unit with his enthusiastic and hard nosed style of play; Shane Blanton, who never slows down on either side of the ball; and Gary Gilbert, a tackle, who isn't afraid to stand up and play. A year ago on the state championship squad as a sophomore and this year as a senior.

I rolled and jumped just as much as anybody during the game last week and celebrated with all Elba fans; however, we've all got to remember that the Tigers weren't as bad as we thought in the loss to Daleville and probably aren't as good as we think they are, despite the big win over Opp. It is true that Elba has improved every single week since the season started, but they must continue to improve or the other teams will catch up and rough times could come again. I think the players know just how just good they can be and will keep working hard to improve, but only time will tell!

ANOTHER "OFOR" WEEK FOR COUNTY TEAMS

When is the nightmare going to end for the other football teams in Cof-fee County? Last week Elba had a big win over Opp, but the other teams in the county went 0-4 and both Luverne and New Brockton remained winless. Here is a quick look back at week #4:

NEW BROCKTON (0-4) got shelled by a supposedly average Cottonwood Bear team 35-0 and in the process fell to 0-4 for the season. When the Gamecocks lost the opening two games nobody got really worried and kept saying that "We should have won 'em both." Well, the last two weeks New Brockton has been whipped by a combined score of 67-12 and it may be time to worry.

KINSTON (0-4) is coming closer and improving every night, but remained winless when they fell to arch-rival Samson 21-1. The Bulldogs aren't a powerhouse by any means and may not even be a very good 2A team, but they do have enough quality athletes to win some games and one starts winning the wins will keep coming. The Dogs aren't as bad as their record makes you think.

ZION CHAPEL (1-3) dropped a big area contest to McKenzie 34-12, but in spite of the lopsided score, the Rebels played hard and learned from

the defeat. The Rebels have been down for a number of years and still don't have the confidence needed to win consistently. Once they get that winning attitude and realize just how good they could be, watch out, the Rebels might pull a few surprises.

ENTERPRISE (1-3) traveled up to Tuscaloosa for a rare road game and was defeated by Tuscaloosa County 21-7. The Wildcats were bound to be a little flat in their opening games, including two straight overtime losses, and especially when you consider that their opponent as far as they knew, or cared, nothing about Enterprise is much better than its 1-3 record would make you think, but the schedule doesn't get any easier, which could cause more tough times ahead.

TIDE FINALLY GETS WIN, TIGERS HAPPY TO TIE

It had to happen sooner or later, and since it was time to play Vanderbilt, it came sooner for the Crimson Tide of Alabama, as they slaughtered Vanderbilt 59-28 to give Coach Gene Stallings his first win as the Tide's new head coach. Alabama could have easily won its first three games, but made mistakes that cost it every single game. So, it just seemed fitting that one week the Tide's opponent would make those same mistakes and it came Saturday. I bet that all the Tide players, coaches and supporters slept a little easier that night.

ZION CHAPEL VS. COFFEE SPRINGS

The Rebels lost a crucial Area game to McKenzie last week and may be a little down, but there is nothing like a visit from Coffee Springs to improve one's football fortunes. This one should be fun for the Rebels!

NEW BROCKTON 20 GOSHEN 19

The Bulldogs will take the field with an 0-4 record when the Raiders come to town, and while Kinston usually handles the 1A Raiders without a lot of trouble, such will not be the case this season as the Dogs slide to 0-5!

HOUSTON ACADEMY 21 KINSTON 17

The Bulldogs will take the field with an 0-4 record when the Raiders come to town, and while Kinston usually handles the 1A Raiders without a lot of trouble, such will not be the case this season as the Dogs slide to 0-5!

Tigers brace for annual battle with Bulldogs

The Elba Tigers will hit the road this Friday night when they travel to Brundidge to battle the Pike County Bulldogs in the renewal of the Tigers most fierce rival.

The Tigers will carry a 3-1 record and a three-game winning streak into the contest, while Pike County, the two-time defending state 4A champions, will enter the game with a lackluster 1-3 mark.

SEABASS Club holds tourney at Lake Martin

BY FRANK REEVES

On September 16, the SEABASS Club of Elba, traveled north to the clear waters of Lake Martin.

The weather was warm, clear and windy!

The fishing, meanwhile, was great, for some, and not so great for others.

A few fishermen reported catching many bass under the SEABASS limit of 12 inches; however, not many fisherman weighed in a fish above the limit, as a total of only 12 bass, weighing a total of only 13.7 pounds were counted.

The majority of the bass were caught in the 8-10 inch range.

The top fisherman for the trip was Bill Waldon, while rounding out the "Top 6" were 2nd Ronny Jirinat, 3rd Harry Jacobs, 4th Joey Williams, 5th Jim Dodd and 6th Ronnie Whitworth.

Remember, fishing is a great sport, so keep it great for others by practicing catch and release!

"Don't let Pike County's record fool ya," warned Elba's Coach Mack Wood, "they are still a mighty good football team and they've been looking forward to our visit for a long time." The Tigers will travel to Greenville, one of the top 5A teams in the state; Lanett, one of the top 4A teams around; and Talladega, also a 4A power. Those three teams have lost only two games between them, so Elba will be facing three very good teams, but all three were undefeated football teams. Last week they got in the win column with a big 21-0 win over Eufaula, in Eufaula. No doubt about it, the 1-3 record doesn't mean a thing!

"Pike County doesn't have the speakers like it has had in recent years," added Coach Wood, "but they do have one of the biggest and most physical teams we'll play all season. On offense they like to run right you and so do the corners. I think if we could be a Pike County if they didn't have a dangerous passing attack. On defense they are just like always - quick and aggressive. They will come at you and challenge you on every play and try to cover the offensive blocking schemes. They studious and move people around. Pike County's defense is just as good as ever."

"For us to have a chance of winning Friday night we'll have to maintain our composure in a very hostile environment and play smart, but physical football," said Wood. The defense has carried us at the end.

"Offensively," stated Wood, "we were able to do what we had worked on and John Jacobs did an outstanding job at quarterback in recognizing Open defenses and changing play calls at the line. The line blocked very well, the backs ran hard and we didn't fumble once. On defense we gave up some yardage at times, but played hard once again and really came through in the clutch. The defense has carried us at the end."

"Pike County has a good football team and I am very proud of the players for the effort they showed against a good football team. We had two good days of practice last week, but didn't look too good on Tuesday and to be honest we played poorly. I thought we could just have a great win for our team and all the Elba fans."

"Offensively," stated Wood, "we were able to do what we had worked on and John Jacobs did an outstanding job at quarterback in recognizing Open defenses and changing play calls at the line. The line blocked very well, the backs ran hard and we didn't fumble once. On defense we gave up some yardage at times, but played hard once again and really came through in the clutch. The defense has carried us at the end."

Theban Jacobs, while rounding out the "Top 6" were 2nd Ronny Jirinat, 3rd Harry Jacobs, 4th Joey Williams, 5th Jim Dodd and 6th Ronnie Whitworth.

Remember, fishing is a great sport, so keep it great for others by practicing catch and release!

Harry Jacobs is big winner at SEABASS awards banquet

BY FRANK REEVES

The banquet, held at the Elba Country Club, is always a family affair and a time of fellowship and good food!

First place honors for the year went to Harry Jacobs, while Mike Chirico and second, followed by Chuck Lohr and Joey Williams in third and fourth place, respectively.

The winner of the "Classic," an annual tourney in which the top fifty-percent of the club members participate, was also won by Harry Jacobs, while the "Big Fish" award went to Mike Chirico, with a 6.62 pound catch.

Termite Tigers got their first win of the season with a heartstopping 24-22 overtime victory.

The PeeWee Tigers led 20-0 after only four offensive plays and remained undefeated by rolling to an easy 50-0 win.

Elba will host Kinston this Saturday night beginning at 5:30 p.m.

The Elba Youth Football League teams hosted Flora Saturday night and proved to be rude hosts as the Tigers rolled to wins in all three games.

The Midget Tigers, now 3-0 on the season, fell behind 8-0 early in the game, but rallied and then pulled away to post a 32-16 win, while the

Junior Tigers fall to E'Trise

Tigers burst Bobcat bubble 34-8

The Elba Tigers exploded for 26 first points and then coasted to a surprisingly easy 34-8 win over the previously undefeated Opp Bobcats, Friday night at a packed Miller Memorial Stadium, in Elba.

The win upset the Tigers record to 3-1, while Opp slipped to with the loss.

The two long-time rivals swapped punts following their first possessions of the game; however, the Tigers were ready to pounce on the second possession and marched 83 yards in 8 plays to a 13-yard TD.

A 13-yard run by fullback Shane Blanton opened the drive for the Tigers while a 7-yard scamper by John Jacobs followed. The Bobcats gave the Tigers a first down at the Elba 42-yardline. The drive slowed following an incomplete pass and a loss on a running play, but Marcus Tyson broke loose for a 14-yard gain on the 12 and an 18-yarder to the Opp 45.

Tyson galloped for another 10 yards on the next play and then quarterback John Jacobs fired a perfect pass to Ronald McKinnon over the middle for the Elba 10-yardline. Jamie Bass hit on the extra point and with 58 left in the first quarter Elba was up 26-8 with 9:27 left in the game.

Opp began to show offensive spirit in its recovery and drove to a first down at the Elba 29, and then quarterback John Jacobs fired a 16-yard scamper by Greg Thigpen and a 16-yarder by Greg Thigpen were big plays in the match, which came after an unsuccessful 4th down attempt by Aaron Hightower, who sparked the Bobcats to a 10-yard gain on the 12 and an 18-yarder to the Opp 45.

Marcus Tyson punched for 90 yards, while it was Reggie Highwater who got the score on a 4-yard run. Highwater, who had a 10-yarder, was followed by a 12-yarder to Reggie Ware for the two-point conversion as Opp cut the Elba lead to 26-18 with 9:27 left in the game.

The score gave Bobcat fans a ray of hope for a miracle comeback; however, the Tigers quickly doused any hope of a rally as they drove 46 yards in 5 plays to rack on their final points of the night.

The Tigers punched the ball out for one first down, but were stopped at the Opp 48-yardline and ended on punts. Jamie Bass hit on the second play from eight yards out as the Tigers' defense was successful.

Jamie Bass again hit the p.t. and with 5:09 left in the half the Tigers, were ahead of the stunned Bobcats 34-0.

A vicious hit by Marcus Tyson knocked the ball loose from an Opp player, but Jamie Bass recovered it and scored 11 solo tackles to once again put the Tigers in excellent scoring position.

A 30-yard pass completion from John Jacobs to Ronald McKinnon gave Elba a lead and gave the Bobcats from there it took fullback Shane Blanton two plays to reach the endzone, with the score coming on a 2-yard blast. The extra-point try sailed wide; however, with 5:23 left in the half the Tigers were off and running with a 10-0 advantage.

Elba got the ball back at its 35-yardline with 3:09 left in the half on an Opp punt and this time drove 65-yards in only five plays to blow the game wide open!

A 10-yard penalty on first down got the drive off to a slow start, but a 12-yard scamper by Shane Blanton

JOEY DONALDSON (89) fights for yardage after pulling in a pass during an Elba touchdown drive.

News From Angela Hughes County Agent

Using "I - Statements" I-statements are used to describe our thoughts, feelings, or experiences in a way that takes responsibility for something that is an concern for them.

Examples include "I'm angry when..." or "I'm excited by..." They can be used to identify feelings, such as "I love to be around you" or "I think you're terrific." I-statements try to locate the source of a feeling, though, problem, or other experience in someone else. For example, "You make me so angry."

Instead of saying, "You're instead of talking to me," it's more honest to say, "I feel hurt when you read my paper." I think I could really like for us to take time to talk together." Instead of saying, "You make me angry because you left the barbecue on," it's better to say, "I feel an-

gray when the barbecue is left on because it uses gas." Using I-statements can be frustrating but you can use them in a healthy die.

First, shop here with the same care you do in a store or restaurant if you're not happy with what's offered, contact the company, get the phone number from the person who sold the machine or look for it on a sticker or menu. A call from the office manager of the food corporation is most likely to get action.

Vending machine executives respond to the number of coins inserted into their machines. In this extremely competitive business, they will stock more healthful selections if the products sell.

Keeping Off Lost Pounds If you're one of the estimated 65 million Americans currently dieting, there's news for you. Once you've shed those excess pounds, simply adding some exercise to your usual routine appears to be more effective at keeping them off than constantly counting calories and avoiding fat.

The moral of the story: once you've gone to the trouble of losing weight, by adding an extra two to three hours to your weekly exercise routine you can have your cake - or at least a piece of it - and eat it too.

Milk Allergy Milk allergy is an uncommon condition resulting from an intolerance to milk protein. While it can occur in adolescents or even among adults, it most often has its onset during the first one to four months of life in a very small number of bottle-fed infants.

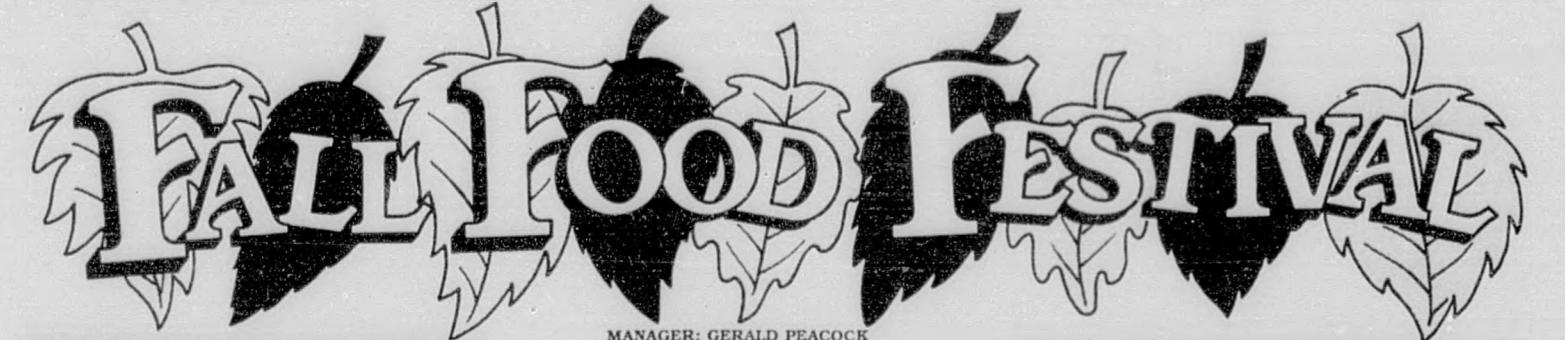

Light all stairways and have a lamp beside the bed of elderly people. Install handrails on both sides of stairs. Tack down carpet and remove slippery throw rugs.

Upholstery Care Taking proper care of upholstered furniture can extend its life and make it more enjoyable to use. Avoid leaving newspapers on upholstery because the ink can transfer to the fabric. To clean, use only products designed specifically for upholstered furniture; some household cleaning products contain bleach or abrasives which can damage the fabric.

Blot spills immediately with a clean, white cloth and always present any product on an inconspicuous area of the fabric. Wash upholstered cushion covers in the washing machine. Sometimes the fabric will shrink or the dyes will fade or run.

Colorful Appliances Colorful appliances are becoming as important as performance in the appliance market, color takes on new significance. Although white continues to dominate, black, royal blue and red are gaining in popularity. Coming on the heels of the stark all-white, these colorful appliances are an easy way to inject an element of color.

Black is particularly popular because it can function as a neutral and when a third color is introduced, blue, particularly the cobalt shade, is a strong seller in preparation items as well as mixers and cookware. Red is selling best in small appliances such as toasters.

NUMBER 11

COFFEE COUNTY HAS RECEIVED \$3.9 SINCE 1987

City of Elba receives approximately \$1.1 million in grants from Alabama

By Marvin McIlwain
Elba Clipper Editor

a \$400,000 grant will enable Elba to closer to our goal of preparing all segments of Alabama to compete for new business growth as part of Alabama's ongoing economic prosperity.

This prosperity has helped our economy experience a net job growth of 11,500 jobs during 1987-1989 according to the U.S. Department of Commerce.

Last Friday while in Daleville, Governor Guy Hunt placed in the hands of Elba's Mayor, Fred Moore,

a letter of commitment for grants totaling approximately \$1.1 million.

The monies will be used to repair 75 houses and help the city continue providing vital city services to the people.

"With the help of \$694,610 in grants, Elba will improve housing conditions for more than 200 people whose homes were damaged in the flood," Gov. Hunt said. "In addition,

these funds also will move us closer to the vital water, police, garbage disposal and other services the people need to help them recover from the disaster. Due to the flood that hit Elba in March, most every service the city provides is pleased to be able to once again help the people of Elba and Elba of officials with these grants."

In addition to Elba, Gov. Hunt awarded grants to representative towns: Daleville, Enterprise, Samson and Sledge.

"These grants will help improve the quality of life for dozens of families giving them purer water to drink, healthier living conditions and improved city services," Gov. Hunt

and the governor presented officials from Samson a \$246,291 grant and officials from Sledge a \$149,200 grant. These funds will be used by each of the towns to improve drainage and water services for 1,123 people.

The town of Samson was also presented with a \$60,000 grant to help rebuild a fire truck building and purchase a fire truck and a garbage truck to replace trucks that were lost in a recent fire that destroyed the building housing the fire department.

Enterprise Mayor Jackie Thompson accepted a \$400,000 grant from the governor to be used to repair 44 houses in the Baptist Hill neighborhood area.

Pictured above accepting close to \$1.1 million grant commitments from the Governor of the State of Alabama, Guy Hunt, are (L-R): Mayor Fred Moore, and Elba's Chief of Police, Freddie Hanchey.

RIVER PARK PAVING CONTRACT LET

City council awards contract on Kelley Foods Inc. water line

by FERRIN COX
Publisher

tion on the alternatives but had to select either #1 or #2, therefore Blankenship was the official low bidder on the project.

S & C Paving was low bidder on #2 at the River Park with a bid of \$1,437,16. Their bid was \$1,400,000. There were six bidders on this project and the winning bid was at least \$10,000 lower than the others.

The project calls for paving a parking lot, installing picnic tables, installing fencing and improving the entrance.

Bids were opened on purchase of a new van for the Senior Citizens program. Cook Chevrolet was low bidder with a bid of \$17,584.94. Police Chief Freddie Hanchey re-

ported that during the past two weeks the police have investigated 149 complaints, including five traffic accidents. There were 45 traffic citations issued including two DUI. Also during this period there were eight criminal arrests.

The police control officer picked up 29 dogs during the period. Two were returned to their owners and two others were sold.

Mayor Fred Moore told council members the new knuckle bumber would be mounted on a city street shortly be ready in the next few days. He pointed city crews to do whatever was necessary to catch up on the trash when the equipment is received.

The figures could be misleading however, as they include the cost of constructing and furnishing a complete new school complex of the money for the new construction is being furnished by federal flood damage fund and a special state bond issue.

The budget is a balanced budget as required by law. With the exception of the new construction, mandated by the March flood damage, the budget is only slightly higher than the one for the past year.

Some additional funds have been reserved for bus operation, due to the increase in the price of gasoline and diesel fuel. There is a projected increase in teacher salaries which the legislature approved last year. Most of this too is funded by the State, but some comes from local sources.

Superintendent Charles Pearce pointed out a carryover in the budget. "I feel good about the budget. I feel the fund balance is absolute and this is good. We inherited a balance and this is what enabled the school to buy the first trailer without borrowing. We need to keep a balance for future use."

The board approved requested field trips for several groups. This includes a trip by the ag students to Moultrie, Ga.; a trip to FFA nation convention for Instructor Mike Harrelson and the FFA president; a class to Disney Theatre in Montgomery; Mrs. Sylvia Padgett and three band trips.

The board discussed a policy on extra curricular activities in which students who go on trips with the school will return home with this group unless prior approval has been requested in writing by the parents.

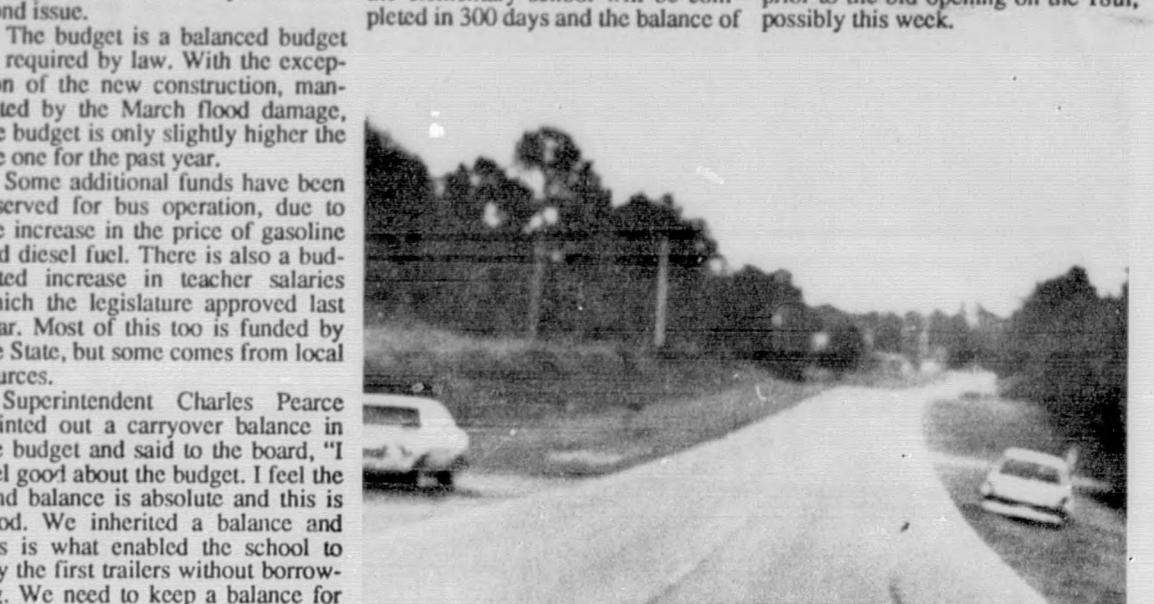

\$20 million budget adopted by Elba City School Board

by FERRIN COX
Publisher

Some changes were adopted in the high school policy manual due to conflicts with the official board policy.

A short discussion on the proposed new school complex indicated bids will be received on October 18th.

However the potential bidders have already asked that changes in the completion dates be made to eliminate the 300 day schedule and call for the completion of the entire project by the 420 deadline. The decision on this change will be made prior to the bid opening on the 18th, possibly this week.

DA buys computer programs

By Marvin McIlwain
Elba Clipper Editor

On Wednesday, October 3rd, Joel M. Folmar, District Attorney for the 12th Judicial Circuit, Coffee & Pike Counties, presented computer programs purchased by his office to the Alabama State Troopers.

The computer programs, two automobile and motorcycle conviction programs, will be used primarily by Troop K of the Alabama State Troopers. Troop K is composed of eight counties in Southeast Alabama with offices in Dothan and Eufaula.

District Attorney Folmar and Capt. E. K. Howard of the State Troopers stated that the expertise of the programs will also be made available to other law enforcement agencies within the area covered by Troop K.

The computer programs will enhance the troopers' ability to determine many factors that will reveal the cause and circumstances of an automobile accident.

Primarily the new equipment, which exceeded the cost of \$10,000.00, is being used in automobile crashes to determine if serious injuries were sustained.

Folmar said, "This equipment is an asset in revealing evidence that will aid in the prosecution of drunk drivers involved in automobile crashes."

He continued, "A person who is driving under the influence and causes an automobile crash in which a fatality occurs, the driver could face murder charges. In crashes where serious physical injury is sustained, the driver could face felony assault charges."

The DA's office is currently involved in four investigations of automobile crashes where death and serious injury resulted. Preliminary reports indicate alcohol was involved. Folmar stated that it is very important informed the commissioners

likely that criminal charges are forthcoming.

In the last few months, there have been eleven traffic fatalities in Coffee and Pike Counties. The District Attorney said that all but one of the fatalities involved either alcohol or drugs.

District Attorney Folmar said, "We want the people of this circuit

and this area to know - that with the assistance of the troopers and their able assistance and investigation and the help of the medical examiner in this circuit - we're going after the drunk driver and the driver under the influence of narcotics or the combination of both."

Please See DA, Page 3

GRAMM-RUDMAN COULD AFFECT COUNTY COMMISSION MEETING BECOMING ROUTINE

By Marvin McIlwain
Elba Clipper Editor

that projects involving federal funds could possibly be delayed. These funds will be delayed due to Congress failing to approve a budget.

Pool further stated that if Gramm-Rudman is enacted, the State of Alabama Highway Department has informed him that federal funds allotted to Coffee County will be cut by 50%.

Fire destroys mobile home

By Marvin McIlwain
Elba Clipper Editor

Eiba firemen responded to an early morning fire, 1:01 a.m. Monday, north of Elba on County Road 58 just off Al. Highway 189N.

When the firemen arrived, the mobile home completely engulfed in flames with the exception of one end. At the time, it was not known if there were any occupants in the trailer.

According to Fire Chief Loyd Driggers, it was later discovered that the sole occupant and owner of the mobile home, Donald Smith, was not home at the time of the fire.

The month of October is the only month in which this may be done!

Six-year old youth struck & killed by automobile

By Marvin McIlwain
Elba Clipper Editor

According to reports at the scene, the child had earlier been seen chasing his dog and near the highway.

Mrs. Reid stated that she saw the child and attempted to avoid hitting him when he darted onto the roadway.

Riding in the automobile with Mrs. Reid at the time of the accident were her daughter, a son and three other boys. They were returning to Montgomery from a weekend in Florida.

The accident is under investigation by the Alabama State Troopers, the District Attorney's office and the Alabama Department of Forensic Sciences.

Assisting Trooper Boyd Hartzog at the scene were Coroner Bobby Baker, Elba Policeman Donnie Byrd and Chief Deputy Sheriff Buddy Ammons of the Coffee County Sheriff's Department.
